Working with APIs: Working with RESTful APIs

Courses & Certifications

Front-End Web Development 📄, Route IT Training Center

07/2024 – 12/2024 | Alexandria

- HTML5: Proficient in semantic markup for web content.
- CSS3: Mastery of styling and layout techniques.
- Tailwind CSS: Experience with utility-first CSS development.
- SCSS: Advanced skills in SCSS for enhanced styling capabilities.
- Bootstrap 5: Familiarity with building responsive websites.
- React.js: Expertise in creating dynamic user interfaces.
- Redux.js: Skills in managing application states and data flow.
- Next.js: Knowledge of server-side rendering (SSR), static site generation (SSG), and optimizing React applications.

The diploma provided a solid foundation in modern front-end development with React.js, Redux.js and Next.js

Work Experience

Frontend Developer Intern, *Tanta Royal School*

07/2025 – 08/2025 | Tanta

- Built and optimized the school website using React and Tailwind CSS.
- Implemented **responsive design, dark mode, and interactive galleries & sliders.**
- Added **multilingual support** and improved **UX/UI.**

Front-End Developer Trainee, *ITI Summer Training*

08/2025 – 09/2025 | Online

- Built a responsive **Movie App** using React.js, Tailwind CSS, and Flowbite
- Integrated TMDB API for movies & TV shows with wishlist, search, and pagination features.

Projects

Elsawaf Consultation Office, *Engineering Consultation Website*

Developed a modern and responsive corporate website for an engineering consultation office to showcase services and previous projects.

- Implemented dark/light mode toggle with persistent user preference.
- Added smooth animations and transitions using Framer Motion to enhance user experience.
- Designed clean and user-friendly UI with full responsiveness across all devices.
- Optimized performance and deployed the project using Vercel.

Tech Stack: React.js, Tailwind CSS, Framer Motion

Live Demo: <https://elsawaf-consultation-office.vercel.app/> 

Movie App, *Graduation Project (ITI Summer Training)*

- Developed a responsive movie application using React.js, Tailwind CSS, and Flowbite.
- Integrated TMDB API to fetch movies & TV shows with details and recommendations.
- Implemented wishlist functionality (add/remove favorites) with counter updates in the navbar.
- Added search and pagination features for smooth browsing.
- Designed modern UI based on Figma prototype and deployed on Vercel.
